Braided Bath Mat

WOVEN NON-SLIP, UP TO 61 X 119 CM · BATH MAT

A densely woven bath mat with a bound edge and a rubber backing — the flat, low-pile kind used in hotels rather than the deep shaggy sort. It soaks up the water off your feet, dries quickly, and stays flat against the floor instead of rucking up against the door.

WHY A FLAT WEAVE RATHER THAN A DEEP PILE

A thick shaggy mat holds water long after you have left the room, which is how bathroom mats end up smelling. This one is woven flat and tight: it takes the water off your feet, spreads it across a wide surface, and gives it back to the air within the hour. It also fits under a door that clears the floor by a centimetre, which a deep pile does not.

CHOOSING YOUR SIZE

All three are drawn to scale in the size guide image.

- **46 x 70 cm — £39.95.** In front of a basin, a toilet, or a shower tray. The standard size, and the one most people already own.
- **61 x 89 cm — £54.95.** A proper step-out mat: both feet land on it when you get out of the bath, not one foot on and one on cold tile.
- **61 x 119 cm — £69.95.** Runs the full length of a standard 170 cm bath, or covers the floor between a double basin and the shower. For larger bathrooms where a small mat looks lost.

WASHING

- **Machine wash cold or at 30°C.** Wash it with towels, not with anything that sheds lint.
- **Tumble dry on low, or air dry.** A hot dryer is what perishes the rubber backing on any bath mat.
- **Do not iron the backing.**
