Head & Scalp Massager with Red Light

WATERPROOF, VIBRATING · MASSAGER

Take your hair-care routine up a level with this electric head and scalp massager. It is waterproof, so you can use it in the shower with your favourite shampoo and conditioner, and it features a red light mode.

Use it with shampoo and conditioner for a more refreshing wash, or on its own for a relaxing head massage. Being waterproof, it can stay in the shower, ready for your next wash. This is a comfort product, not a medical device.
