Glass & Steel Outdoor Wall Lantern

OUTDOOR WALL LIGHT

A clear glass body held in a slim steel frame - the lantern shape stripped back to its outline. Light spills out on all sides rather than being pushed in one direction, which makes it a good fit either side of a front door.

AVAILABLE OPTIONS

Finish: Matt Black

KEY FEATURES

INSTALLATION
Mains or solar, so no cable run is needed

WEATHER PROTECTION
Surface mounted to the wall, IP65 rated for outdoor use

MATERIALS
Stainless steel and glass construction

WEATHER PROTECTION
IP65 weather resistant, anti-rust

BULB & POWER
Energy-efficient integrated LED

LIGHT
Warm white 3000K

INSTALLATION
Hard-wired installation

HARDWIRED FITTING — ELECTRICIAN RECOMMENDED

- **The mains version is hardwired to a 110-240V supply** - we recommend a qualified electrician.
- **The solar version needs no wiring at all**, but its panel must see open sky for most of the day or it will run short.
- **Surface mount**, fixes flat to the wall.
- **Acrylic glazing rather than glass** - the same look without the risk of a shattered panel.
- **IP65**, rated for year-round outdoor use. UKCA and CE certified, 1 year warranty.

UK wiring colours and step-by-step help: installation manual (PDF).

MORE DETAILS

- Stainless steel and glass construction
- IP65 weather resistant, anti-rust
- Energy-efficient integrated LED
- Warm white 3000K
- Hard-wired installation

WHY CUSTOMERS CHOOSE THIS

- A coach lantern stripped back to frame and glass - traditional shape, no fake candle or scrollwork.
- Available as a solar version, so a wall with no cable run still gets a proper light.
- Stainless steel frame with acrylic glazing: the look of glass without the risk of a shattered panel.

HOW IT WORKS

A coach lantern stripped back to frame and glass: the traditional shape without the fake candle or the scrollwork. Available as a mains fitting or a solar version for a wall with no cable to it.

DIMENSIONS

Finish	Dimensions
