Memory Foam Back Cushion

LOWER BACK SUPPORT FOR CHAIR & CAR · SEAT CUSHION

This memory foam back cushion sits against your chair's backrest to give your lower back cushioned support. It helps you sit comfortably at your desk, in the car or at home.

Place it behind you, adjust its height to suit and enjoy more comfortable sitting wherever your day takes you. It is easy to move from your office chair to the car and back again. This is a comfort product, not a medical device.

KEY FEATURES

MEMORY FOAM
High-quality foam with a balance of softness and support

LOWER BACK SUPPORT
Fills the gap between your back and the chair

AT YOUR DESK
Makes long working hours more comfortable

IN THE CAR
An easy addition to the driver's or passenger seat

AT HOME
Equally comfortable in an armchair or on the sofa
