## WHY CUSTOMERS CHOOSE THIS

- At 1400 lm it is bright enough to actually work under - an outdoor kitchen, a back door, a car port.
- Washes light straight down the wall, so the beam lands where you need it instead of in your eyes.
- Stainless steel and acrylic rated IP65, built for a wall that gets weather on it all year.

## HOW IT WORKS

A long horizontal bar that washes light straight down the wall. At 1400 lm it is bright enough to actually work under - an outdoor kitchen, a back door, a car port - rather than just mark a doorway.
