Memory Foam Seat Cushion

COMFORTABLE SITTING SUPPORT FOR EVERYDAY USE · HOME ACCESSORIES

Memory Foam Seat Cushion | Comfortable sitting support for everyday use

A hard chair gets uncomfortable long before the day is over. This memory foam cushion moulds to your shape and spreads your weight across the whole seat rather than a couple of points, which makes a long stretch at a desk, in the car or at the kitchen table easier to sit out.

This is a comfort cushion rather than a medical product, and it is not intended to treat or prevent any condition.

AVAILABLE OPTIONS

Colour: Ice Blue, Ice Pink, Blue, Green, Grey, Dark Grey, Black
