Petite Dehumidifier

COMPACT MOISTURE CONTROL FOR BATHROOM & WARDROBE · DEHUMIDIFIER

Petite Dehumidifier | Compact moisture control for bathroom & wardrobe

For the small spaces where damp does the most damage: the bathroom shelf, the wardrobe floor, the cupboard under the stairs. One button, two indicator lights and a translucent tank – it simply runs, and switches itself off when the tank is full.

• **For spaces up to 20 m²** – removes up to 250 ml a day • **Quiet at 45 dB or less** – fine for a nursery or bedroom • **Automatic shut-off** – the indicator lights when the tank is full • **Small footprint** – approx. 21.5 x 15 x 12 cm • **UK plug**

Simple, compact and quiet: a small helper against damp.
