# Flint Bathroom Set

2-PIECE SPECKLED CERAMIC WITH BAMBOO, 18 CM · BATHROOM ACCESSORIES

A soap dispenser and a tumbler in a speckled, terrazzo-like ceramic, each wrapped with a painted bamboo band. The contrast between the mineral surface and the warmth of the bamboo is what makes the pair read as a set rather than two separate objects.

### WHY IT WORKS ON A SMALL BASIN

At 18 cm both pieces clear the underside of most mixer taps, so the set can sit beside the basin rather than behind it. The speckled glaze sits well against marble, natural stone and matt tile — surfaces where a flat white plastic set looks like an afterthought.
