Halo Mini Dehumidifier

1.7L TANK, TIMER & AMBIENT LIGHT · DEHUMIDIFIER

Halo Mini Dehumidifier | 1.7L tank, timer & ambient light

Small enough for a bedside table, capable enough to take the damp edge off a bedroom, box room or walk-in wardrobe. Halo draws moisture from the air quietly through the night and collects it in a clear 1.7 litre tank, so you can see at a glance when it needs emptying. A soft ambient light glows through the tank in the colour of your choice, or not at all.

• **Removes up to 350 ml a day** – at 30°C and 80% humidity, into a 1.7 L clear tank • **8, 12 or 24-hour timer** – set it before bed and let it switch itself off • **Quiet sleep mode** – around 44 dB • **Automatic shut-off** – stops and lights red when the tank is full • **Low 22.5 W power draw** – thermoelectric, no compressor • **UK plug** – approx. 14 x 14 x 25.7 cm

A gentle, good-looking way to keep a small room fresh through the damp months.

AVAILABLE OPTIONS

Colour: White, Black

WHAT'S IN THE PACKAGE

- Halo Mini Dehumidifier, in the colour and size you choose
- Mains cable with plug
