Ribbed Compact Dehumidifier

QUIET MOISTURE CONTROL FOR BEDROOM & BATHROOM · DEHUMIDIFIER

Ribbed Compact Dehumidifier | Quiet moisture control for bedroom & bathroom

Condensation on the windows, a musty wardrobe, towels that never quite dry: damp shows up first in the smaller rooms. This compact dehumidifier draws excess moisture out of the air and collects it in a tank you can see at a glance, so the room feels fresher without a bulky appliance in the way. The finely ribbed casing is designed to sit in plain sight, in white or black.

• **Made for rooms of 21–30 m²** – bedrooms, bathrooms, home offices and box rooms • **Quiet running at 50 dB or less** – calm enough to leave on through the evening • **Visible water-level window** – check the tank without opening anything • **Compact footprint** – approx. 36 x 20 x 17.5 cm, fits beside a bed or on a shelf • **UK 3-pin plug** – 220–240 V, ready to use out of the box

A quiet, good-looking way to keep damp out of the rooms you use most.

AVAILABLE OPTIONS

Colour: White, Black
