Slim Outdoor Wall Light - Eight Sizes

OUTDOOR WALL LIGHT

A narrow wall bar that disappears against the brickwork by day and throws a clean line of light after dark. Eight lengths means you can match it to the wall rather than settling for the nearest size.

HARDWIRED FITTING — ELECTRICIAN RECOMMENDED

- **Hardwired to a 110-240V supply - we recommend a qualified electrician.**
- **Surface mount**, and only 4.5 cm deep, so it sits flat in a narrow passage.
- **Colour temperature is chosen at order** - 3000K warm or 6000K cool - and is not switchable afterwards.
- **The LED bands are replaceable.**
- **IP65**, rated for year-round outdoor use. UKCA and CE certified, 1 year warranty.

WHY CUSTOMERS CHOOSE THIS

- The textured lens breaks the light into a pattern across the wall, so it does decorative work at night and disappears by day.
- IP65 rated and only 4.5 cm deep - it sits flat against a facade without catching a shoulder in a narrow passage.
- Choose 3000K or 6000K at order, so it matches the rest of your exterior lighting rather than fighting it.

HOW IT WORKS

A vertical panel with a textured lens that breaks the light into a soft pattern across the wall. It reads as a piece of trim by day and does the decorative work after dark. Fixed output, no remote and no app.
