Slim Twin-Mode Dehumidifier

QUIET MOISTURE CONTROL FOR BEDROOM & STUDY · DEHUMIDIFIER

Slim Twin-Mode Dehumidifier | Quiet moisture control for bedroom & study

Clean-lined and compact, this dehumidifier sits neatly beside a desk or bed and gets on with the job. Choose a gentle or a stronger setting depending on how damp the room feels, set the timer, and let sleep mode keep things quiet after dark. The tank slides out from the front for easy emptying.

• **Two dehumidifying levels** – about 250 ml or 350 ml per 24 hours (30°C, 80% RH) • **Timer and sleep mode** – quiet running through the night • **Soft night light** – can be switched off • **Defrost function** – keeps working in a cool room • **Low 24 W power draw** – thermoelectric, no compressor • **UK plug**

Discreet, quiet moisture control for the rooms you spend the most time in.
