Solar Outdoor Lamp - Dimmable with Remote

OUTDOOR LIGHT

Runs entirely off its own solar panel, so there is no cable to bury and no circuit to extend. Charges through the day and comes on at dusk; brightness is set from the remote rather than left on full all night.

AVAILABLE OPTIONS

Size: Small, Medium, Large

KEY FEATURES

SIZE Available in 3 size options	**DETAIL** Solar powered and wire-free, no electrician needed	**SIZE** Three sizes
DETAIL Solar powered - no wiring required	**CONTROL** Dimmable via included remote	**WEATHER PROTECTION** IP65 weather resistant, anti-rust
BULB & POWER Energy-efficient LED		

SOLAR POWERED — NO WIRING NEEDED

- **No assembly.** It arrives as one piece. Stand it on any firm, level surface, or fix it down through the base if it is somewhere exposed.
- **No wiring and no electrician.** Solar powered and fully wire-free.
- **Position matters more than anything.** The panel needs open sky for most of the day; under a tree or a deep overhang it charges poorly and runs short.
- **Remote included, battery is not.** It takes a single CR2025 coin cell.
- **Run time varies with the season.** A long bright summer day gives a full evening; in midwinter, or after several dull days, expect noticeably less. We would rather say that than quote a figure that only holds in July.
- **Leave it out all year.** IP65 stainless steel with an anti-rust finish, and the LED strip is replaceable.

MORE DETAILS

- Three sizes
- Solar powered - no wiring required
- Dimmable via included remote
- IP65 weather resistant, anti-rust
- Energy-efficient LED

WHY CUSTOMERS CHOOSE THIS

- Sits low on paving or decking and washes light sideways, so a terrace edge is marked without a bollard in the way.
- Solar with remote dimming - no cable run, no trench, and you still control the brightness.
- Three diameters that step up a terrace, from a discreet Ø18 cm to a Ø38 cm that doubles as a feature.

HOW IT WORKS

The lamp is self-contained: a solar panel set into the top face charges an internal battery through the day, and the light comes on by itself at dusk. There is no cable, no transformer and no trench, so it can sit on a terrace, a lawn edge or a flat roof where running power would be impractical. Brightness is set from the supplied remote rather than left on full, which is what makes a charge last the evening.

DIMENSIONS

Size	Dimensions
Small	Ø18 x 10.5 cm
Medium	Ø28 x 16 cm
Large	Ø38 x 21.5 cm

SPECIFICATION

Material	Stainless steel
Finish	Matt black
IP rating	IP65
Colour temperature	3000K warm white
Dimmable	Yes, with remote
Wattage	3 W (210 lm)
Weight	1 kg

All dimensions are nominal and given in centimetres. Cables and chains are adjustable and can be shortened on installation.

WHAT'S IN THE PACKAGE

- The outdoor light, in the colour and size you choose
- Built-in solar panel and rechargeable battery; ground stake or wall fixings
- Remote control (on variants that list it)
- Integrated LED, so there is no bulb to buy
